AWARD

AM-HYBRID-P2
Hybrid-Phase-2

WHAT IS BEING PROPOSED

Youngstown Business Incubator proposes to reissue the 2025 invoices listed overleaf on a negotiated indirect cost rate. The work, the period of performance and the deliverables are unchanged. What changes is the basis on which indirect cost is claimed.

AS BILLED

10% of ODCs only; no indirect on labor

AS PROPOSED

INDIRECT_COMBINED at the negotiated rate on MTDC.

THE RATE

INDIRECT_COMBINED at 24.71% on MTDC. The rate is computed only from classifications sealed before it, and it carries that seal: 60fb3f4b52219514... The sealing is what lets this be checked rather than taken on trust — the judgments behind the rate were fixed and hashed before any rate existed, so none of them was chosen to produce it.

AUTHORITY

“No change binding unless incorporated in a written modification signed by both parties”

— §4.4

This memorandum is that request. No restated invoice is a claim against the award until NCDMM incorporates the change in a written modification, and none has been submitted for payment.

Both directions are shown separately on the acceptance form. Where this award over-collected, YBI is proposing to give that money back; where it under-recovered, YBI is asking for it. These are two conversations and a single net figure would hide both.

On this award the rebuild against the cost record shows 72,947.07 collected above what 2025 supports. YBI is raising that itself and proposes to return it.

WHAT IS NOT FINISHED

· The paper behind the judgments — 0 of 363 federally chargeable judgments cite a document, of 757 live. Attaching is not citing: a citation is why the judgment was made, and it is what VERIFIED requires.
